

ZYVORAI LABS · CUSTOMER DOCUMENTATION

Zyvor Fabric

Getting Started

2026-08-17

What you need

See [Admin basics](#) for ports and auth. Summary:

Open the Fabric web UI against the daemon API (`:9095`).

1. Open the product

Open the Fabric web UI against the daemon API (:9095).

2. Sign in / authenticate

External OIDC + JWT bearer.

3. Orient yourself

Use the quick map on the [customer docs home](#), then open the home surface (/).

4. First workflows

Follow [Common workflows](#) for the shortest useful paths.

Next steps

- [Using the Dashboard](#)
 - [Admin basics](#)
 - [Page guides](#)
-

Zyvor Fabric is organized by navigation groups (sidebar, desktop nav, or CLI command groups). Use search / command palette when available.

Surfaces

Need	Path
Dashboard	/
VMs	/vms
DRS / FT	/drs , /fault-tolerance
Site Recovery	/site-recovery
Settings	/settings

Browse vs act

Inventory and status views are safe to explore. Mutating actions (deploy, migrate, sign, remediate) follow role gates and confirmation dialogs — review impact first.
